Genesis

From a small family run business to a leading multifarious company, Neo has come a long way!

Mr. Aziz Khan, the visionary and an experienced businessman, with his able guidance and expertise, set up Neo Pack Plast (India) Pvt. Ltd. in 1978. His initial venture was into MS Barrels manufacturing.

The consumption of paints used in barrels increased to such an extent that Neo soon launched its own paint unit under the name Neo Paints in 1995-1996. Later, Neo Resins, an in-house unit was set up in 2005 owing to the mammoth demand for paints. This Unit manufactured high Quality resins (raw material that is widely used in the Paint Industry).

Mr. Aziz Khan steered ahead the company and set up another unit in a tax free booming Industrial area of Daman. This unit produced HM/HDPE Liner Bags.

Even today, it continues to upgrade its technical and manpower skills to produce quality products . Owing to an overwhelming response from its clientele, Neo's reputation has spread far & wide, enabling it to go international and open up a branch in Dubai.

Mission, Vision & Values

Our Mission:

Is to exceed customers satisfaction across various industrial sectors through our Quality products.

Our Vision:

- ❖ Leading Provider of complete coating solutions
- ❖ Manufacture environment friendly products.
- ❖ Expand our operations

Our Philosophy: We at Neo, focus on developing high quality products to be delivered at low cost. We believe in upgrading skills & technology to provide unmatched customer service.

Our Core Values: Our values reflect in our strong customer focus and commitment to over-deliver customer's expectations.

Quality Policy

We are committed providing products of world-class quality to ensure utmost reliability.
We achieve it through:

- ❖ Total Quality Management System
- ❖ State -of -art Technology
- ❖ Intensive Research and Development
- ❖ Comprehensive training programs for all employees

A Keen insight into customer needs, an eye for detail and relentless pursuit for perfection, has earned Neo, the Prized ISO: Certified co. Quality Certification.

Neo has a strict and ever-vigilant system in place to monitor the quality of products.

Environment Friendly

Since its inception, Neo's greatest endeavor has been to promote and develop environment friendly products that have least risk factors involved and are safe for customer use.

Its state-of-art facility enables safe incineration of perilous effluents.

Health & Safety

At Neo's health & safety of our employees and customers is of prime importance. Apart from providing protective devices, we train our employees on health & safety measures. We deliver complete medical benefits to our employees. Many hi-tech firefighting equipments are placed at strategic locations. So also, an Emergency Shutdown & Alarm Systems have been provided for absolute plant safety.

Reach/ Achievements

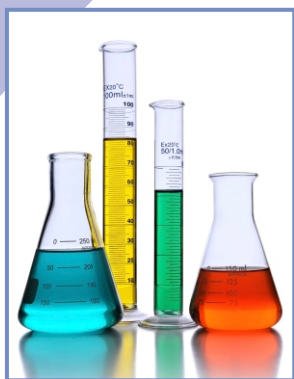

Over the years, our esteemed clientele across several countries vouch for our Quality products and supreme services. Neo has left no stone unturned in expanding its reach to the nooks and crannies of the country. Being a quality-driven company, Neo's products are preferred across various industrial segments, be it paints, pharmaceuticals, Automotives or any other industry in need of packaging and coating solutions. In a short span of time, Neo has achieved many targets that include:

- ❖ Increase in the market share.
- ❖ Customer satisfaction beyond expectation
- ❖ Increase in the production capacity to cater to high demand and supply
- ❖ Overseas business expansion.

Research & Development

For any product to succeed, it needs the utmost support from all major divisions of an organization be it the R&D, Marketing or the Manufacturing Division. Neo Works in perfect harmony with all its divisions in order to develop innovative products that are hallmarks of quality and credibility.

Neo has a separate state-of-art R&D division that is well-equipped with global standard machinery. Its trained professionals work

round the clock in developing new and innovative products that brim with quality depending on the clienteles' needs, these professionals provide complete packaging and coating solutions.
